I rely on XM Radio as my source for music and entertainment. Urban Radio in New York City has become so profane that you simply cannot listen to it with your family in the car. XM has allowed my family and I to enjoy radio again. The addition of local traffic and weather allows me to avoid having to risk exposing my family to NYC radio which is as important as anything. Even if you were to remove traffic and transit. I would not go back to Local Radio. Local Radio is awful. Listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I demand and deserve.
